General Description

Hidden in a forest glade on the southern slopes of Mount Kenya, Mountain Lodge offers a unique window on wild Africa – with a steady stream of small and great creatures drawn to its well-established waterhole. The 42 rooms are comfortably furnished and the lodge offers special children's meals and massage and beauty treatments. The lodge restaurant offers home-cooked buffets, prepared with local farm produce. Its four-kilometer nature trail offers excellent opportunities for seeing Kenya's shy forest species, including duiker, waterbuck, suni, genet cats and Colobus monkeys.
