General Description

Overlooking the shimmering white sands of Nyali Beach, the Voyager Beach Resort is just seven kilometers north of Mombasa – but a world away from the modern bustle of Kenya's coastal capital. Since its creation with the linking of two beach hotels in 1998, Voyager has gained a reputation as a place of non-stop action and entertainment for guests of all ages and persuasions. The hotel offers a unique 'voyage of discovery' through different seafaring lands, sampling the cuisine, entertainment and customs of nations as diverse as France, Japan and Jamaica. Many of the hotel's three restaurants and five bars are 'decked out' in nautical themes, while the attentive and charming staffs all dress as pirates and sailors. The 233 air-conditioned 'cabins' offer far greater comforts than you would usually expect of a three-star hotel. Voyager boasts one of Kenya's finest water sports centers – with a particularly good diving school – and the hotel recently introduced an acclaimed Adventurers' Club with educational games and marine excursions for younger passengers.
